Subject: Revised Course Plan for the Current Academic Year

Dear Faculty Members,

We are pleased to inform you that the revised course plan for the current academic year has been approved by the Heads of Departments (HODs). Please take note of the following updates:

- Syllabus Adherence:** The syllabus should be strictly taken from the Anna University curriculum and must be approved by the HOD.
- Content Duplication:** Duplication of syllabus content in the course plan has been removed to avoid redundancy.
- Assignment Rubrics:** A rubric sheet for assignments has been shared. Please print it out and attach it to the course file.
- Assignment Adjustments:** The number of assignments has been reduced to five.
- MCQs:** 10-15 MCQ questions are to be included in the assignments.
- CEPDS Attainment Calculation:** For CEPDS attainment, only CEA (Continuous Internal Assessment) and assignments should be considered.
- Slow Learner Identification:** Details of slow learners are to be identified and considered after CEPDS.
- Lab Course Plan:** No changes have been made to the lab course plan. However, V/Lab content may be included as content beyond the syllabus.

Please ensure that these changes are implemented in your respective courses.

Thank you for your attention to these updates.

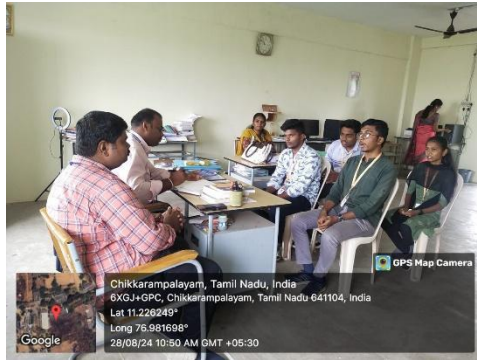

Yours faithfully,
RYM

2021 Regulation of Anna University

Formative and Summative Assessments in Colleges

- Formative and summative assessments are two primary methods used in colleges to evaluate student learning.
- They serve different purposes and are administered at different points in the learning process.

Formative	Summative
When: Ongoing throughout the course	When: At the end of the course
Why: To monitor learning and provide feedback	Why: To evaluate overall learning and achievement
How: Quizzes, assignments, class participation	How: Exams, projects, final presentations

Deeper Understanding of the Assessments

Formative	Summative
When: Ongoing throughout the course	When: At the end of the course
Why: To monitor learning and provide feedback	Why: To evaluate overall learning and achievement

Plain course

- The Anna University Course Evaluation 2021 Regulation components are:
- Internal Assessment (IPA):** 40%
 - Classroom
 - Online
 - Open-ended
 - Mid-semester tests (20 marks)
 - End-semester tests (20 marks)
- External Assessment (EPA):** 60% (30% each mark and 40% from the Institute)
- External Assessment (IPA):** 40% marks
- Total:** 100%

Integrated course

- The mark split-up components of the integrated course evaluation 2021 regulation of Anna University are:
- Internal Assessment (IA):** 40 marks
- End Semester Examination (ESE):** 40 marks
- Total:** 80 marks
- The internal assessment component may include:
 - Continuous Assessment (CA):** 40 marks
 - Mid Semester Model Examination (MSME) (Both Theory and practically):** 20 marks

21-Day Challenge: A Study Plan for 2nd, 3rd, 4th Year Engineering Students

Kind attention senior class students! Here's a 21-day study plan to help you ace your semester exams. University Exam starts on 27th and 4th years - 02/12/24 - for 2nd year - 05/12/24

Week 1: Foundation Building on courses (Days 1-7)

- Review Core Concepts:
 - Revisit fundamental concepts and formulas for each subject.
 - Create concise notes or flashcards for quick revision.
- Practice Previous Year Papers:
 - Collect and analyze past papers to understand the exam pattern and common question types (solve with facilities for question banks).
- Identify your weak areas and focus on them (Concentrate on analytical courses and write derivations).
- Time Management:
 - Develop a daily study schedule, allocating specific time slots for each subject.
 - Study time: Morning - 6:00 am to 8:00 am, College timing - 8:00 am to 4:30 pm, Evening - 5:30 pm to 9:00 pm (adjusting dinner time). Night - 10:00 pm - 11:00 pm (if necessary).
 - Use time management techniques like the Pomodoro Technique (work in focused 25-minute intervals with short breaks).

Week 2: Intensive Revision (Days 8-14)

- Solve Practice Problems:
 - Work on a variety of practice problems to reinforce your understanding. (Continuous study is important).
 - Focus on challenging problems to improve problem-solving skills (Mark important questions, write and practice the same).
- Group Study Sessions:
 - Collaborate with classmates to discuss concepts, clarify doubts, and learn from each other. Organize group study sessions to maintain motivation.
- Mock Tests:
 - Simulate exam conditions by taking mock tests. Analyze your performance and identify areas for improvement.

Week 3: Final Preparation (Days 15-21)

- Consolidate Notes:
 - Review your class notes and textbooks to reinforce key concepts.
 - Create mind maps or diagrams to visualize complex topics. Organize them systematically (the tough questions).
- Focus on Weak Areas:
 - Dedicate extra time to subjects or topics that you find challenging.
 - Seek help from teachers or peers if needed.
- Revision Techniques:
 - Practice relaxation techniques like meditation or yoga to reduce stress and improve focus.
 - Get adequate sleep and maintain a healthy diet.

Additional Tips:

- Stay Organized: Keep your study materials well-organized to avoid last-minute stress.
- Stay Hydrated: Drink plenty of water to stay focused and energized.
- Take Breaks: Short breaks can help you stay refreshed and productive.
- Positive Mindset: Believe in yourself and your abilities. A positive attitude can significantly impact your performance.

By following this 21-day study plan, you can effectively prepare for your exams and achieve your academic goals. Remember, consistent effort and a positive mindset are key to success.

Dear Principals, teachers
and my dear academic, administrative and support staff,

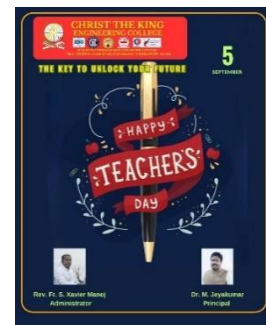

I am very happy to wish you all on this great **TEACHERS DAY**.

In spite of some of the difficulties we are undergoing due to the expansion of our institutions, all of you have been very understanding and have been extending your wholehearted support. Kindly bear with us for a few more days. Most of the things will be settled very soon. I believe, with the grace of God.

I cannot thank you enough for the great contribution you have been giving until now. But, at the same time, I wish to repeat, "Miles to go before we sleep." I think it is time to regain the lost glory of our institutions. We are contemplating certain measures for improvement; and I look forward to your cooperation.

Once again, wish you a very *Happy Teachers Day* and a life blessed in abundance by the Almighty God, our Father.

With warm wishes,
Fr. J.E. Arul Raj

20. ALUMNI MEETING / TESTIMONIALS

ALUMNI TESTIMONIALS

"My experience at Christ the King Engineering College was life-changing. The Civil Engineering program was rigorous, yet fulfilling, and the faculty were always accessible for guidance and mentorship.

- **Ms. G. Manju**
Batch 2020 -2024 / CIVIL

Faculties helped me a lot in terms of academics, morals and ethics. They have helped me to pursue my dream. So I'm always grateful to them.

- **Ms. S. Indhupriya**
Batch 2020 -2024 / ECE

My time at college was truly transformative, both personally and professionally. The dedicated faculty, state-of-the-art resources, and vibrant campus environment provided the perfect platform for growth and exploration.

- **Ms. M. K. Aparna**
Batch 2020 -2024 / ECE

Beyond academics, the college offered numerous opportunities to develop leadership skills, network with industry professionals, and engage in meaningful extracurricular activities. These experiences not only prepared me for the challenges of the professional world but also helped shape my character and confidence.

21. GRATITUDE OF STUDENTS

- Administrator , Principal and CKEC NSS Team handover the “**Chennai Flood Relief Donation Things**” to VAO Office , Karamadai on 12.12.2023 .

- “**A Wall of Love**” Cupboard was placed on 19.06.2024. The "Wall of Love" concept is a great way to promote sharing, reuse, and community bonding. By placing a cupboard or a designated area where people can donate their unused items, you're creating a platform for others to benefit from them.

Participating in various events and receiving awards can indeed foster a sense of gratitude among students.

Some of them are

- Third Year ECE student Ms.Tamizharuvi won **"THANGA PAAVAI AWARD-2024"**.

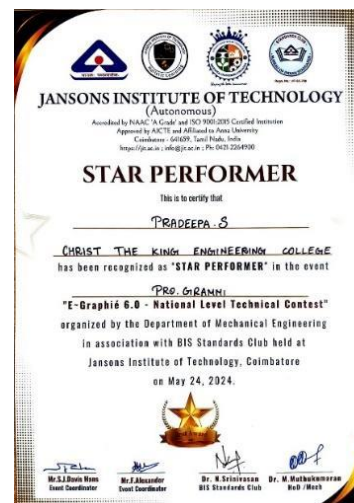

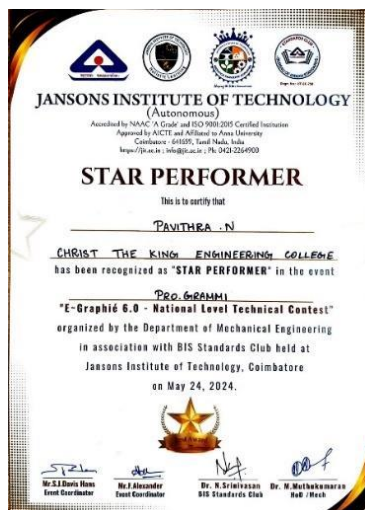

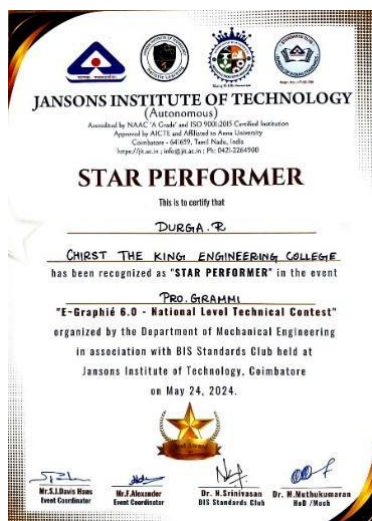

- Mr. Adam Benhin J from the Department of ECE has been Elected as the **Group Rotaract Representative for group – IV**, Nilgiris and has been promoted from President to District Cabinet Officer.

- Ms.S.Abinaya, III / Mech have got Selected as **RJ in Hello FM**. Also she got selection in Vijay TV Neeya Naana Program for Speech. The Administrator, the Principal , Faculty Members , Students Appreciated her for the Achievement.

- 6 Students from I Year / CSE participated in "E-Graphie 6.0" National Level Technical Contest organized by Department of Mechanical Engineering in association with BIS Standards Club held at Jansons Institute of Technology , Coimbatore on 04.05.2024 and 3 Students got "**Star Performer Award**".

➤ CKEC NSS & Rotaract Team in association with Govt. Hospital, Mettupalayam organised a **Blood Donation** Camp in CKEC Campus on 21.11.2024. Students participating in blood donation camps is a wonderful way to demonstrate their gratitude and give back to the community and make a positive impact on the world.

➤ Students in association with **Alumni cell** shows their gratitude for the opportunities provided. Students may be grateful for the opportunities they had while studying at the college, such as internships, research projects, or networking events, and want to give back to the institution.

Principal

- NAAC Criterion Heads updated the Work Completion Status to the Principal and NAAC Coordinator on regular basis and following points were discussed
 - Criterion Heads are instructed to prepare SSR Report with reference to Model SSR Report , that has been sent by NAAC Coordinator.
 - NAAC Coordinator insisted metric in charges to check the SSR Report in Website on 01.07.2024.
- NAAC Self-Study Report has been submitted on 04.07.2024. The Administrator , The Principal and The Academic Coordinator congratulated the Team Work done by the Criteria Champions.

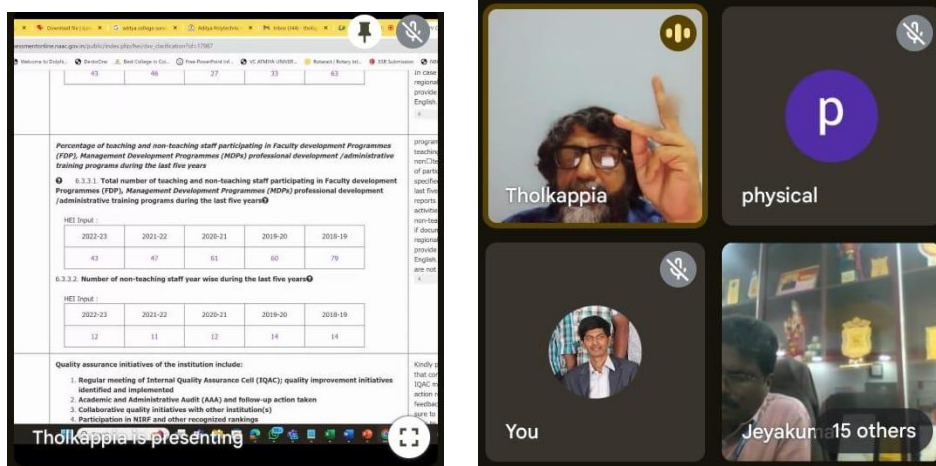

- SSS has been initiated on 08.07.2024. NAAC Coordinator and Criterion 2 Head requested class advisor to follow up and Guide their wards regarding Student Satisfactory Survey in Professional Manner and shared the guidelines for filling the Form.

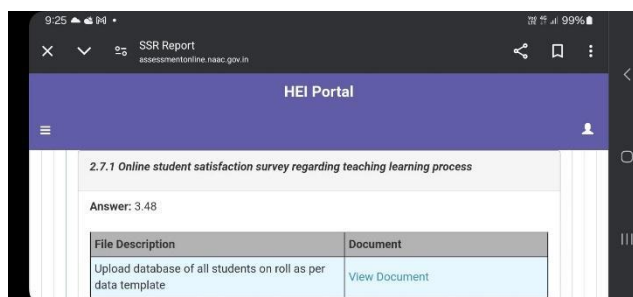

- DVV has been requested from NAAC on 09.07.2024.

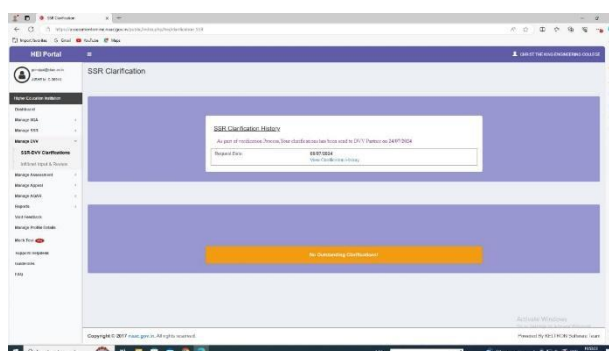

- DVV Clarification Online Meeting was conducted on 11.07.2024. The NAAC Coordinator , Criterion Heads noted the Clarifications and the Corrections were made.

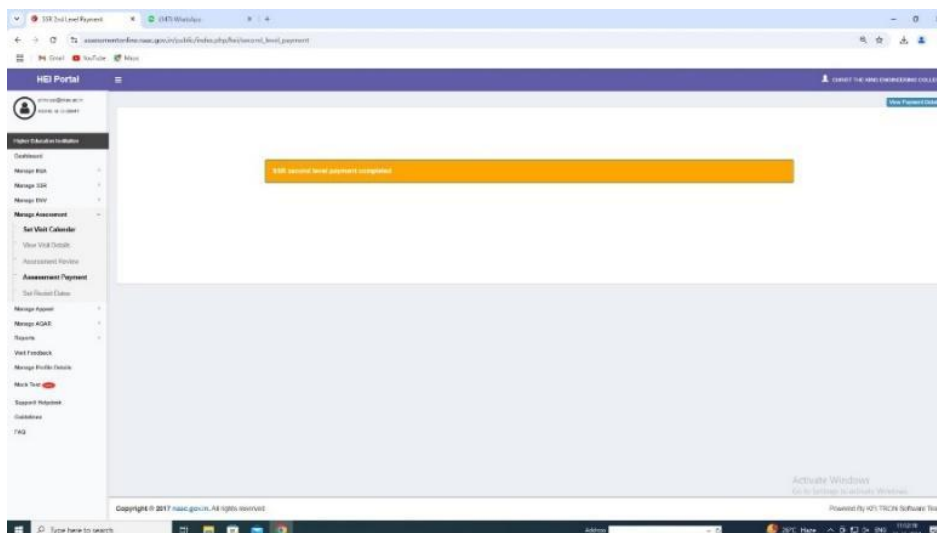

- As per instruction from Aasaan Team , DVV In charges were allocated to completed the Clarifications on 16.07.2024.
- The Principal shared the SSS Dashboard and insisted to improve the respond percentage.

- DVV Files were verified by Criterion Head and NAAC Coordinator and Uploaded in Portal and Website on 20.07.2024.
- With the Blessing of Administrator DVV Clarification Files were submitted on 24.07.2024.

- As we submit the DVV Clarification files on 24.07.2024. The Principal , NAAC Coordinator checkBoard Art Pending Work , Upcoming Pre Qualifier Round Status and Peer Team Visit requirement.
- We had submitted the DVV Clarification files on 24.07.2024. The Pre Qualifier was received from NAAC Committee on 08.11.2024.
- NAAC SSR Second Level Payment was completed on 21.11.2024.

- Principal and the NAAC Coordinator conducted meeting with all Criterion Heads and discussed the following points on 18.11.2024
 - Collect Documents from Metric In charges.
 - Existing Files will be Audited on 26th Nov 2024.
 - Ensure all details are updated in the Website.
 - G-Doc Link has been shared to update the Files.

Investigation on Anaerobic Composting for Soil Health Enhancement and Development to Fermented Products (DST/SEED/SCSP/STI/2020/416)

CKEC has obtained a DST Project fund worth of **83 Lakhs** sanctioned on 30/03/2021 on the title “Investigation on Anaerobic Composting for Soil Health Enhancement and Development to Fermented Products” with **Dr. M. Jeyakumar as Principal Investigator** and **Mr. D. Cithrathan as Co-Principal Investigator**.

- As a part of the DST project D.Citharthan (Co-PI) published a Book titled “Mann Valam” (Soil Health); ISBN No– 978-93-84389-26-0, Forwarded by Dr.S.Rangarajan, Former Director, Indian Space Research Organisation (ISRO) and Forwarded Dr. Karunakaran, Former Vice Chancellor, Tamil University, Tamil Nadu, India.
- As a part of DST Funding Project , “Bean to Bar Chocolate Training Program” was organized on 12.08.2024 . The Resource person of that program was Mr.L.Nitin Chordia , India's First Chocolate Taster.

- Ms. Harshini , JRF / DST Project , article was published in Vikatan Magazine on 25.09.2024.

- As a part of our DST Project , faculty team of CKEC met the Corporation Commissioner of Coimbatore Mr. Sivaguru Prabhakaran , IAS to leash the potential of Anaerobic Composting and he had consented with the idea and segregated a 67 ward in Coimbatore for implementation. We have given one KG of compost to the commissioner for their farm.

- Mr.D.Citharthan , AP/EEE & Dr. M. Arumuga Babu HOD/EEE and Ms. Harshini , JRF / DST Project has attended the DST Expert Committee Meeting at Central Marine Fisheries Research Institute , Kochi , Kerala on 29.08.2024 and 30.08.2024.

Project Proposals invited under
STUDENT PROJECT SCHEME 2024-2025

Tamilnadu State Council for Science and Technology (TNSCST) has been implementing the Student Project Scheme (SPS) in order to harness the talent and potential available with students for the benefit of our State. Under this scheme final year UG students (Engineering) / PG Science Students / PG professional Students who have dissertation work in their curriculum may apply. Financial support up to a maximum of Rs.10,000/- will be provided to each project. Those who want to apply under this scheme are requested to read the instructions carefully and apply as mentioned below (<https://www.tnscst.tn.gov.in>).

One hard copy of the proposal complete in all aspects is to be submitted through proper channel to **The Member Secretary, Tamil Nadu State Council for Science and Technology, DOTE Campus, Chennai - 600 025.**

- Last date for online registration: **09.09.2024, 5:00 PM**
- Last date for hard copy submission: **13.09.2024, 5:00 PM**

How to apply:

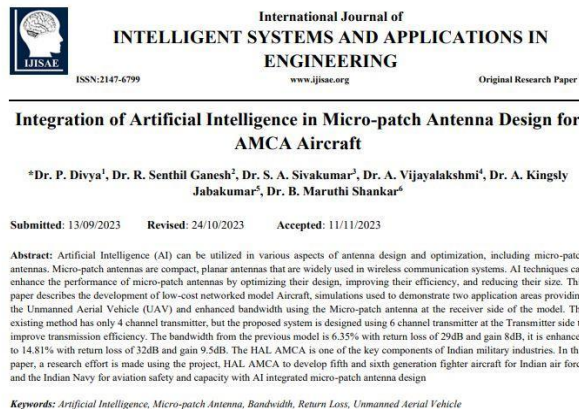

1. Students must apply through the link: <https://forms.gle/Nh2H6bH12btmDuwZ6> on or before **09.09.2024, 5:00 PM**.
2. Fill in all the requested details; submit it and then you will receive an email with all the filled-in information as a PDF.
3. Then print the PDF and get the signature of the Guide, HoD and Principal/Registrar/ Director/Dean, as applicable. Application number generated should be mentioned on the front page of the proposal.
4. After getting the signatures, attach the project details (maximum 03 pages) and send them by registered post to the council office on or before **13.09.2024, 5:00 PM**.
5. Project proposals that are not registered through the above provided link will not be considered and no communication will be entertained in this regard.

ABSTRACT

This paper presents a systematic approach to environmental management of pollution and/or hazards caused by construction projects. It proposes a qualitative approach to assess and control the problem and a method to calculate the Construction Pollution Index (CPI) which provides a quantitative measurement of pollution and/or hazards caused by the construction projects.

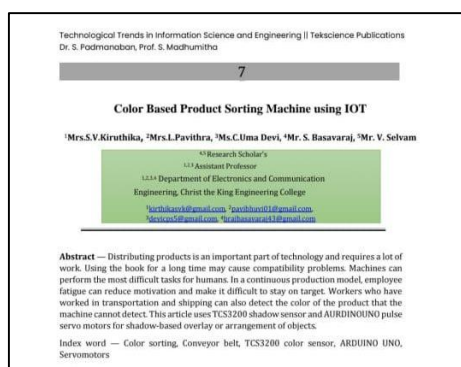

Questionnaires were distributed to the organization and the results were made into percentage, level of readiness index and regression test to analyze the organizations response. Results was analyzed through Statistical Package for the Social Sciences (SPSS).

2.DATA COLLECTION METHODS

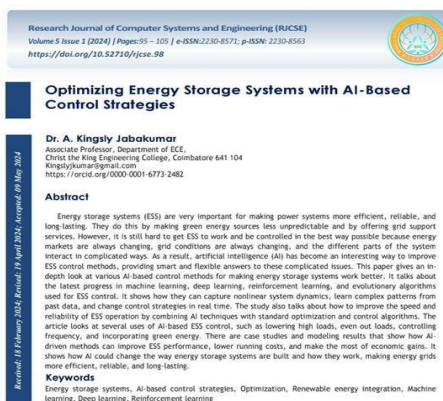

Data was collected using questionnaire survey, distributed to all project managers involved in managing major capital projects and experts in construction industry. Data was also collected through focus group interviews conducted with the selected project decision-makers and expert interview method.

Focus group interviews considering the nature of the study, a convenience sample method was used to conduct a group focus interviews with Engineers designated as Project Directors, contractors and consultants. The focus group interview helped finalize the design and content of the questionnaire. This was decided by

Abstract: This research aims to delve into the utilization of VLSI (Very Large-Scale Integration) devices and circuits within the realm of Artificial Intelligence (AI) applications. Through an extensive investigation, this study explores the integration of VLSI technology to enhance the efficiency, speed, and performance of AI systems. The research investigates various aspects such as the design, implementation, and optimization of VLSI circuits tailored specifically for AI algorithms and applications. Additionally, the study examines the impact of VLSI devices on power consumption, area utilization, and overall system scalability in the context of AI. The findings from this research contribute to a deeper understanding of the role of VLSI devices and circuits in advancing AI technology and provide valuable insights for future developments in this field.

Abstract: This paper reviews an innovative cooling system combining piezoelectric materials and nanofluids for high-performance computers. It explains the working principles of piezoelectric materials, detailing their context and construction, emphasizing the use of PZT lead zirconate titanate. The nanofluids, specifically Al₂O₃, enhance heat transfer efficiency. The construction of the piezoelectric micro-pump and methods for nanofluid preparation are outlined. The paper compares the advantages and drawbacks of nanofluids to traditional coolants, emphasizing stability challenges. It concludes by highlighting the potential of this integrated cooling system and suggesting areas for improvement. Overall, the proposed solution offers a promising avenue for enhancing electronic component cooling efficiency in compact systems.

Abstract: The Internet of Things (IoT) is transforming e-mobility by linking electric vehicles (EVs) to a network of sensors and devices that gather, send, and analyse data. This connection converts EVs into intelligent machines, allowing for real-time monitoring of battery health, motor performance, and energy consumption. The data gathered enables performance optimisation through personalised recommendations, which improves range and battery life. With real-time data on charger availability and consumption patterns, IoT enhances the management of the charging infrastructure, resulting in more effective deployment and shorter wait times. Continuous monitoring makes predictive maintenance easier by identifying possible issues before they develop, preventing malfunctions, and enhancing the lifespan of vehicles. Improved grid integration is also made feasible by the Internet of Things, as utilities can leverage information about charging protocols to optimise grid management and ensure a steady supply of electricity. For drivers, utilities, and the environment, IoT for e-mobility essentially builds a more dependable, efficient, and sustainable transportation network.

Abstract: The extensive use of non-linear loads and power-electronic devices such as Switched Mode Power Supplies (SMPS) and rectifiers has increased the importance of power quality. These developments have created new challenges, such as current harmonics and reactive power disturbances, which degrade power quality and cause voltage sags, swells, flickers, and device failures. Traditional passive LC filters are limited in their ability to manage these phenomena, which frequently result in resonance difficulties. Active Power Filters (APFs), particularly Shunt Active Power Filters (SAPFs), have proven more effective in reducing harmonics at important grid points. The integration of Renewable Energy Sources (RES) via Distributed Generation (DG) systems sets additional harmonics due to power-electronic converters. The Internet of Things (IoT) offers new possibilities to enhance power quality through real-time monitoring and control. IoT sensors distributed across the grid and renewable energy installations provide significant data regarding power quality and system performance. This data enables dynamic adjustment of power-electronic equipment and helps to reduce harmonic distortion. Integrating IoT-enabled monitoring could enhance power system efficiency and stability, specifically in applications involving renewable energy and non-linear loads.

42. CHALLENGES

- Nearby Institutions in our area have got accreditation of NAAC and got Autonomous status, so it is very difficult for our college to admit the students in the upcoming year.
- Appointing & retaining existing faculty in CSE/AI&DS/IT is a great challenge.

43. FUTURE FOCUS

At the Outset we thank our most respected Management and administrator for gracing us with resources, with the available resources the students are synergised positively in participative learning, Cooperative learning, problem solving learning. The Teaching and Learning Practise at CKEC enhances the knowledge level of students, bridging the skill gap, promoting positive attitude among all its students. The practices at CKEC will bring productive engineers back to the society as Empowered, energised and enthusiastic.

Future Focus

- NAAC - 2025
- NBA - 2026
- AUTONOMOUS - 2027
- Planned to establish a research centre.
- Planned to Increase the total student strength above 1000 in the upcoming year.
- Planned to introduce a new course (innovative & technology based) in the upcoming year.
